The orthography of the Worcester Dictionary is that used by most, if not all, authors of distinction in this country and England, and conforms to the general usage of ordinary writers and speakers.

Whatever prejudices may have existed previously, a careful study of this volume will invariably be followed by a warm appreciation of its great merits, and a desire to add it to the well selected library, be it large or small. It is a library in itself, and will remain an imperiable record of the learning of its compiler.

It will be seen by the correspondence herewith submitted that I refused my consent. The Mayor of Annapo I refused my consent. The Mayor of Annapolia elso protested, but both steamers soon after wards landed, and put off the troops. Subsequently large bodies of troops reached here in transports, and were landed. I was notified that the troops were to be marched to Washington. They desired to go without obstruction from our people, but they had orders to go to Washington, and were determined to obey those orders. In furtherance of their designs, they took military possession of the Annapolis and Elk Ridge Railroad; in regard to which act I forwarded to Brig. Gen. Butler the protest, and

'On Wednesday morning the two detachments first, landed took up their line of march for Washington. The people of Annapolis, though greatly exasperated, acting under the counsel of the most prudent citizens, refrained from molesting or obstructing the passage of the troops through the city. Organization and Parts of the Army

So many persons, unacquainted with the oranization of an army, are making inquiries upon that subject, that we copy from the Cincin-nati Gazette the following outline of its ele-ments, as recognized in the French school and in our own, so far as we have had armies:

A company is the unit of an army, and is sup-posed to average, on the war basis, one hundred men, officers included. The general rule for Baltimore county.

On being informed of this, the War Department ordered them back. Before leaving Baltimore, Col. Huger, who was in command of this two lieutenants, five sergeants and four captains. Then the regiment, when full, is made up regularly of 1,000 men.

A brigade should be composed of two regiments, a squadron of cavalry and a corps of field artillery. If these were all full, a complete brigade, operating alone, would, in our acryice, or in the French, make 2,400 men.

greater alterative power as to afford an effec-tive antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a medy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellowcitizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-BALGIA OR TIC DOULOUREUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ENVSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great pro-motor of health, when taken in the spring, to expel the foul humors which fester in the expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the longer, for cleansing the blood, and blood healthy, and all is well; but with this blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something

must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on
